AI Augmented, Experienced & Certified Scrum Master / Project Manager with 12 years delivering IT and software development projects in Agile, Scrum, Kanban, and hybrid environments. Proven track record of coaching teams, facilitating Scrum ceremonies, and driving improvements in performance and quality. Skilled in partnering with Product Owners to refine and prioritize backlogs, formulate clear requirements, and ensure alignment with business goals. Adept at identifying team needs, removing impediments, and fostering an environment for innovation through initiatives such as cross-functional workshops, Dev Days, and team building activities. Collaborative leader with a passion for enabling agile transformation across distributed, multicultural teams. (Creator of Aligile Ethos)
